# Highly Specialised Personality Disorder Service

**Cygnets Aspen Clinic, Doncaster**

**Beds available  
Now taking referrals**

Cygnets Aspen Clinic is a specialist service for women with a diagnosis of personality disorder and associated complex needs. We provide assessment, stabilisation, treatment and rehabilitation for up to 16 women.

Individuals in our care may have complex trauma histories or have experienced regular placement breakdowns. At Cygnets Aspen Clinic we provide a collaborative, multi-disciplinary approach to care and treatment, with a focus on recovery and co-production with service users.

Female

18+ years

16 beds

**"I actually applied the things that I was learning in the situations I found myself in and I did this over and over again. I was no longer sitting in groups and pretending that I was going to be doing the work. I started talking, I did the work until it was my first response to a situation. I am still changing but now at least I can say that I'm in REAL recovery."**

Service user

## Our approach - a modular treatment pathway

At Cygnets Aspen Clinic we operate an integrated modular approach to treatment for women with a diagnosis of personality disorder, accounting for diagnostic differences, NICE guidelines and the work of Livesley (2004).

Our multi-modal treatment pathway consists of a range of therapeutic models including Dialectical Behaviour Therapy (DBT), Trauma-focused Cognitive Behavioural Therapy (TF-CBT), and Compassion focused Therapy (CFT).

The Psychology team at Aspen Clinic offer a range of evidence based psychological assessments and therapies which are tailored to the individual's specific needs. Our priority is to empower women to feel safe enough to trust and engage in the work. Importantly, we promote service user's choice to engage with us.

## Therapeutic approaches and assessments

Our therapeutic interventions are tailored to individual presenting needs, based on comprehensive psychological formulations undertaken on admission. The interventions we use include:

- > Dialectical Behaviour Therapy (DBT)
- > Trauma-focused Cognitive Behavioural Therapy (TF-CBT)
- > Compassion-focused Therapy (CFT)
- > Trauma based Therapy
- > Eye Movement Desensitisation and Reprocessing (EMDR)
- > Structured Clinical Interview for PD (SCID-5-PD)
- > Millon Clinical Multiaxial Inventory (MCMI)
- > Difficulties in Emotion Regulation Scale (DERS)
- > Beck Anxiety Inventory (BAI), Beck Depression Inventory (BDI), Beck Hopelessness Scale (BHS)
- > The Awareness of Social Inference Test (TASIT)
- > Chart of Interpersonal Reactions in Closed Living Environments (CIRCLE)
- > Aspects of Identity Questionnaire (AIQ)
- > Warwick-Edinburgh Mental Well-being Scale (WEMWBS)
- > Model of Human Occupation Screening Tool (MOHOST)
- > Assessment of Communication and Interaction Skills (ACIS)
