# High Support Inpatient Rehabilitation (Level 2) Service for Men

Cygnets Oaks, South Yorkshire

Good

Beds available  
Now taking  
referrals

Cygnets Oaks is a 35 bed hospital specialising in high support inpatient rehabilitation (level 2) for men, providing a multi-disciplinary treatment programme designed to assist individuals with their return to independent living.

Depending on the individual's level of need, we provide different levels of support in 2 wards, the Lodge and the House;

- > **Lodge** – this is a 20 bed admission ward where most people will start their recovery journey at Cygnets Oaks. Individuals who are admitted to this ward are generally stepping down from an acute or a low secure service
- > **House** – a 15 bed service for individuals to continue along their care pathway. The House also contains a 4 bed step-through service. This is situated in its own corridor and has a separate living space to prepare for community placements, whilst still having the input from the multi-disciplinary team (MDT)

Male

18+ years

35 beds  
in 2 wards

## Our service user profile:

- > Men aged 18+ years
- > Detained under the Mental Health Act (1983) or informal

- > May have secondary diagnoses of mild learning disability, autism spectrum disorder or personality disorder
- > May have a forensic history and/or be stepping down from secure services
- > May have a history of repeated acute admissions

## Our service at a glance

Our dedicated clinical teams provide a full multi-disciplinary programme that includes; occupational therapy, psychology and psychiatry, offering the men we support the opportunities and input they need to stabilise their condition and enter society with a renewed sense of enthusiasm and optimism.

Our interventions are matched according to individual needs. Our team will always adapt their engagement technique and personnel delivering specific interventions to maximise engagement and ensure that progress is always being made with the men in our care.

Our occupational therapy department supports service users to engage in meaningful occupations and overcome barriers that prevent them from engaging in meaningful activities. They focus on supporting men to develop the skills needed to live a more independent and fulfilling life in the community. We have a full therapy programme that includes a range of self-care, productive and leisure-based activities. Our occupational therapy pathway has different stages of treatment and the interventions offered will change as our service user's progress through each stage of this pathway.

Barnsley town centre is a short walk or bus ride away, giving service users access to the many facilities in the local community. To promote social inclusion we have developed pathways linking the service user's short term goals in care plans with activities in the mainstream services of the local communities.

"Know that staff are here to help you, so don't disregard them. It's all down to you, so apply yourself and find that staff member and you will get through it. Find what is important to you. For me, it was music. Cygnet are there saying 'we are here to look after you', and sometimes we can be proud and don't want to accept that. Staff will tailor things to you, and if you can realise this it will give you relief and peace of mind."

Previous service user at discharge

"Spending time here really helped me reconnect with who I truly am, an independent, self-motivated person."

Former service user

## Make a referral

- 1 Referral made to your **regional business relationship manager** or 0808 164 4450 / [chcl.referrals@nhs.net](mailto:chcl.referrals@nhs.net)
