Gledholt is an enhanced community residential service providing outcome focused support for adults with learning disabilities, who may have behaviours that challenge and associated complex needs.

Gledholt is operationally a nurse-led service with both service manager and head of care being qualified nurses. We have an in-house multi-disciplinary team (MDT) who support the individuals in our care throughout their journey with us. The team consists of a consultant psychologist, psychology assistant, occupational therapist, occupational therapy assistant, activity co-ordinators, nurses and speech and language therapist. We are able to meet the changing needs of the people we support as they progress through their care pathway, while ensuring their safety is maintained and their independence supported.

- > May have associated complex needs

Our service at a glance

We have a unique care plan pathway called the Visual Discharge Plan (VDP). This approach involves a collaborative process between the individual, their families, the MDT and staff team. It ensures the person is at the heart of their care and takes into account what's important to them, whilst balancing this with the clinical need. This puts the people we support at the heart of their care and also ensures that discharge planning commences at the point of admission.

Gledholt is divided into two living areas, the main house and the coach house. The main house, which is split across three floors, offers seven en-suite bedrooms, communal lounges and a kitchen on each floor to enable individuals to shop for and prepare their own meals. The coach house is a two bedroom unit giving the individuals we support the option to spend time in their own space or in the main house. Externally there are beautiful gardens to the front and rear of the building with raised flower beds, outdoor seating and plenty of space for sports, games and parties.

The service is located in a bustling residential area of Huddersfield, in walking distance to an abundance of community facilities. Individuals we support are encouraged to be involved in the local community as much or as little as they wish to be. We have great links with external agencies, including the police, the mental health enhancement team, local hospitals and many more to ensure that people we support safe and well supported in the community.

Our facilities:

- > En-suite bedrooms
