

Improving lives together

Low Secure Mental Health Service for Men

Saltwood Ward,
Cygnets Hospital Maidstone, Kent

Good

Accepting
Referrals

Saltwood Ward is a 17 bed low secure service for men with enduring mental illness, including those with a personality disorder at Cygnets Hospital Maidstone, Kent.

Our integrated multidisciplinary team works collaboratively, combining expertise to deliver high quality care and treatment. We work closely with the local Trust, who have extensive community links and resources. For men that require an additional period of rehabilitation before moving on, we have Kingswood Ward on-site, a High-Support Inpatient Rehabilitation Service.

Cygnets Hospital Maidstone is a core and active provider partner in the South East (KSS) Provider Collaborative for Adult Secure Services. The primary focus of the partnership is to offer secure care within the South East region when service users requires it. We aim to keep lengths of stay within secure services as appropriately short as possible, while achieving the treatment goals set out. The Provider Collaborative Case Manager oversees the quality and care of our KSS patients.

"Thank you all so much for the work you do on the ward, and in the community, with all the patients."

Our Model of Care

Introducing Me

This phase is about the referral and assessment this helps the team make sure you are in the right place for your needs.

Understanding Me

This phase focuses on getting to know you, we will introduce you to the team of people here to help you.

Building My Skills

We will look at what you need to be safe and well. You will work with members of your team to find out your skills and assess any risks.

Building My Independence

You will start building trust with other people. You will be involved in activities and learning skills suited to you.

Preparing to Move On

You will be putting your skills to practice. We will meet with you, your family and carers to discuss moving on to a safe and meaningful life.

In the last 18 months,
90% of the men
discharged were able to
**move to a similar or
less restrictive service***
