

EDITOR'S LETTER

Welcome to the first addition of the Bierley Bulletin, a magazine that gives you a handover about anything hospital related and any new info you may need for the future. The magazine is a quarter (3 month) magazine. We hope that you like the magazine and get more involved in upcoming editions in the future.

In this edition we wanted to recap some events we have held in 2021 as well as advertise any events we're going to have this year. We also explore our new partnership with Mind in Bradford and what that means for the coming year. There have been a lot of changes recently inside the hospital with new annual changes including staff changes and the way the hospital operate. We know this can make you anxious and very confused - especially in an environment you should feel comfortable in. We want this magazine to offer some sort of escape for you, as well as making you more aware of things happening. This magazine can't be completed without your involvement, co-operation and stories. It would be amazing for more of you to come forward for the next edition so we can have more talking points, more interesting hobbies and more content for people to see!

Also a big shoutout and thank you to our Chief Photographer Jen from Bowling Ward for the amazing photography that you see in the Bierley Bulletin.

Jaim M
Chief Editor
