

Residential service for adults with autism and learning disabilities

No. 12 High Street, Lincolnshire

Good

Now taking referrals

No.12 High Street is a 5 bed specialist residential service for adults with learning disabilities and autism, who may present with behaviours that challenge. This service enables residents to take a step closer to independent living within a safe and comfortable community setting.

Person-centred planning is at the heart of everything we do, based on the specific needs of the individuals in our care. We understand that consistency and continuity of care is important for the individuals we care for.

Mixed Gender

18+ years

5 beds

Our resident profile:

- > Diagnosis of learning disabilities and autism
- > Challenging behaviour
- > Communication challenges
- > Associated complex needs
- > Likely history of multiple exclusions and placement or family breakdowns
- > May have an ECHP (Education Healthcare Plan)
- > May be subjected to DoLS (Deprivation of Liberty Safeguards) or Care Orders

Our service at a glance

The service has four en-suite bedrooms, as well as a one bedroom apartment. This apartment has an en-suite bedroom, a kitchenette, lounge and their own access to the communal garden. This apartment gives an individual the option to live independently in their own space, or to join in socially in the communal spaces within the house.

As part of our care pathway, our service enables residents to build upon earlier learnt skills to achieve further independence, self-advocacy and confidence leading to a better quality of life. Individuals can gain skills through extended learning on a number of accredited platforms.

Interventions are matched according to individual needs and our life skills development programmes are overseen by our activity coordinators. The integrated MDT consists of occupational therapy, speech and language therapy, psychology and psychiatry. The team supports the development of daily living skills and reduction in maladaptive behaviours.

Our staff use least restrictive practice approaches and are trained in specialised intervention techniques and sensory integration strategies. A combination of person-centred planning, measurement of progress and a full multi-disciplinary approach can only result in the best outcomes for each individual.

Our facilities:

- > En-suite bedrooms – residents are encouraged to personalise their room
