Accepting
Referrals

South Hampton Ward is our 12 bed male PICU service that accepts emergency and crisis admissions. Referrals will come to us from all areas, including acute and prison services.

The aim of South Hampton Ward is to provide a short, rapid intervention to help service users regain a sense of control and order in their lives, so they can move to a less restrictive care setting or return home.

The service provides expert, intensive, short-term, individualised care for men detained under the Mental Health Act. Service users will present with increased risks that require them to be assessed and treated in a PICU environment.
