Cygnnet Alders Clinic is a 20 bed rehabilitation service providing assessment, treatment and rehabilitation for women with personality disorder and complex needs. Cygnnet Alders Clinic is on the Welsh Hospital Framework with specialist service status.

At Cygnnet Alders Clinic we provide a specialist psychologically informed personality disorder pathway across three living areas; Severn, for assessment and stabilisation; Avon, where service users move as they engage and progress with their treatment pathway; and Coln, which focuses on transitioning to the community.

We have a substantive multi-disciplinary team (MDT) comprising of a hospital manager, clinical manager, head of psychology, head of occupational therapy, ward managers, drama therapist, 2 psychology assistant, OT assistant, activity co-ordinator, specialty doctor, 11 RMN nurses, senior support works and support workers. We work closely with the local community and primary care.

We promote physical health, wellbeing and meaningful occupation as part of our treatment programme, using strong community links to facilitate individualised wellbeing plans.

Female

18+ years

20 beds
in 3 wards

Part of the
Welsh Hospital
Framework

Our service user profile:

- > Women, aged 18+ years
- > Complex mental health needs, behaviours that challenge and emotional instability which may be characterised by a diagnosis of personality disorder or history of complex trauma
- > May be detained under the Mental Health Act
- > May have a history of substance misuse
- > May have experienced regular placement breakdowns
- > Sustained relational and social functioning problems
- > Forensic or non-forensic history
- > Capacity to engage
- > Referrals accepted from Tiers 1-4

Our approach

We adopt an integrated modular approach to treatment for women with a diagnosis of personality disorder, accounting for diagnostic differences, NICE guidelines and the work of Livesley (2004).

With a focus on interpersonal relationships, we use individual formulation to deliver a personalised and integrated combination of psychotherapeutic and pharmacological interventions. These can include:

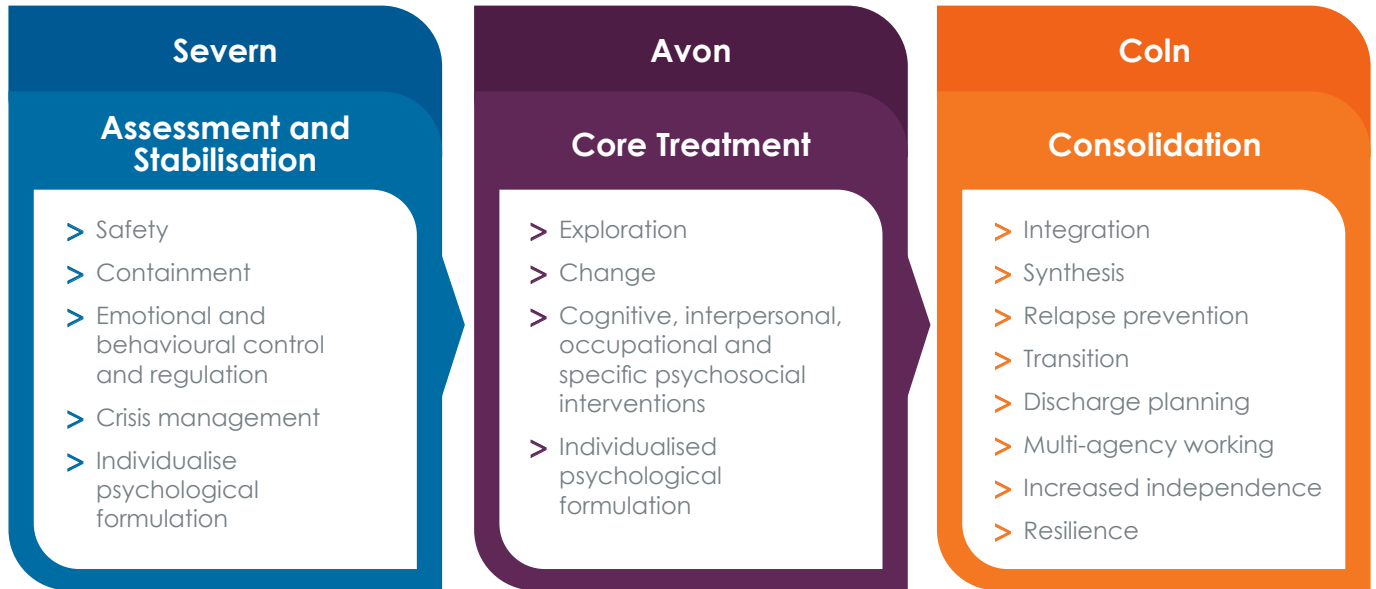

- > Dialectical Behaviour Therapy (DBT) Informed Approach
- > Cognitive Behavioural Therapy (CBT)
- > Compassion Focused Therapy (CFT)
- > Schema Focused Therapy (SFT)

Our aim is to address the core features of personality disorder: emotional regulation, interpersonal functioning, and self-identity and to prepare the women in our care for a transition to life back in the community.

Therapeutic approaches and assessments:

- > Dialectical Behaviour Therapy (DBT) Informed Approach
- > Cognitive Behavioural Therapy (CBT)
- > Trauma Focused-Cognitive Behavioural Therapy (TF-CBT)
- > Compassion Focused Therapy (CFT)
- > Schema Focused Therapy (SFT)
- > Eye Movement Desensitisation and Reprocessing (EMDR)
- > Cognitive Analytic Therapy (CAT)
- > Rational Emotional Behavioural Therapy (REBT)
- > START Risk Assessment
- > Positive Behavioural Support Plans
- > Psychometric Assessments
- > Neuropsychological assessments
- > Ongoing Psychological Formulation
- > Wellness Recovery, Support and Action Plans
- > Drama Therapy
- > Movement Therapy Groups
- > Drug and Alcohol Support Group
- > Grief Therapy Group
- > Psycho-Educational Groups

 - 5 Admission agreed and plans for transition arranged with referring team following confirmation of acceptance of placement

"I really have felt a part of the MDT at Cygnnet Alders Clinic. Each time I have visited, I have received a warm welcome and have been looked after. They have facilitated the successful discharge of someone who has been in inpatient services for years. The level of support provided to the community team on discharge of the service user has been impeccable.

I do look forward to the opportunity where I may be in a position to work with the Alders team again. I really have learned a great deal about myself and my own working practice, by working alongside them - for which I am most grateful. I would like to wish the team my warmest wishes, and thanks." **Social Worker / Care Co-Ordinator**
