Low Secure Mental Health Service for Women with Personality Disorder

Alvaston Ward, Cygnet Hospital Derby, Derbyshire

Good

Alvaston Ward is a 15 bed specialist low secure service for women with a primary diagnosis of emotionally unstable personality disorder and for those with a mental illness that may or may not be present with emotionally unstable personality disorder.

The primary pre-cursor to an admission to Alvaston Ward is that the individual is ready to engage in a therapeutic programme. Service users may have a history of involvement in the criminal justice system or may present with significantly challenging behaviour, severe self-neglect and vulnerability.

The multi-disciplinary team proactively use Dialectical Behaviour Therapy (DBT) and informed Dialectical Behaviour Therapy and Schema Therapy. The DBT programme is adapted to the needs of the service users and is tailored for individuals who may have educational or learning difficulty issues, such as dyslexia, which may act as barriers to the standard DBT programme.

Psychological Therapy

Our team of forensic, clinical and assistant psychologists offer a variety of therapeutic interventions and personalised packages of therapy to the service users.

The team provide a range of therapies delivered in group and individual settings, including DBT, Schema Therapy, psychodynamic psychotherapy, CBT, trauma work, substance misuse and offending behaviour interventions.

Global Assessment of Progress (GAP) Discharge Destinations

The Global Assessment of Progress (GAP) is our specialist outcome tool used on Alvaston Ward. The tool allows us to measure an individual's progress throughout their placement, plot the positive developments, setbacks and changes in wellbeing but also identify the warning signs of any possible deterioration, whilst informing care planning and being transparent about future risks.

Individuals in our care had an average GAP score increase of 39% on discharge

*Data and graphs relate to data from Jan 2022 - Nov 22.

100% of the individuals discharged from Alvaston Ward from January 2022 to November 2022 showed an improvement in their mental health and were able to move closer to home or step down along their care pathway into the community
