referrals

Svanna Ward at Cygnet Hospital Beckton is our new 12 bed PICU service for women. The service accepts emergency and crisis admissions from all areas including acute wards and forensic services. Our aim is a short, rapid intervention to help individuals to regain a sense of control and order in their lives, so they can move to a less restrictive care setting and, ultimately, return home.

The service provides expert, intensive, short-term, individualised care for service users detained under the Mental Health Act. Service users will present with increased risks that require them to be assessed and treated in a PICU environment.
