## Living spaces

You will have your own bedroom and bathroom. You can make this space your own and fill it with your things.

You will share dining and lounge areas with other people.

There are smaller lounge rooms if you need a quiet space.

## Our Model of Care

This Model of Care shows how we will support you during different stages of your recovery.

### Phase 1

#### **Understanding me**

Getting to know your team and support group.

### Phase 2

#### **My Skills**

Understanding your needs and support for a safe future.

### Phase 3

#### **My Independence**

Building trust, engaging in treatment and learning new skills.

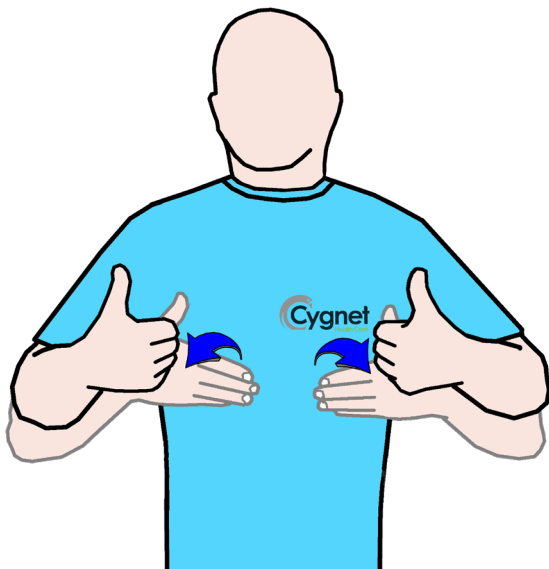

### Phase 4

#### **Preparing to move on**

Moving on to a safe and meaningful future.

## Person centred planning

The people who use our services helped to create the award winning **All About Me Deaf recovery package**. This package helps people to tell us what they need, makes you aware of your rights and the services available to you.

We will work with you to make a care plan. Care plans can be made in a way that is suitable for you, for example as a filmed BSL version.
