# Cygnet Hospital Wolverhampton

> PICU & Acute Hospital for Men, in West Midlands

# Introduction

**Cygnnet Hospital Wolverhampton is our new state-of-the-art PICU & Acute hospital for men, in the West Midlands.**

The service features two wards. Carter Ward, a 12 bed PICU and Shaw Ward, a 17 bed Acute ward. Cygnnet Hospital Wolverhampton has a full multi-disciplinary team (MDT) and supports the acute needs of adults requiring rapid access to mental health services, including those who may need an intensive care environment.

We're focused on length of stay and making sure individuals move as quickly and safely as possible from our services to the most appropriate and least restrictive environment for them. Individuals can step down through the pathways available within Cygnnet services.

Referrals can come to us from all areas, including other acute services and prison services.

**Shaw Ward has been named in memory of Brain Shaw, a valued member of staff that worked at Cygnnet Sedgley Lodge before sadly passing away in 2019.**

"We know dad and the rest of the family wish you every success with Cygnnet Hospital Wolverhampton and hope it will benefit and help all those that will access the service in the future. It is such a great feeling knowing Our Dad's legacy will live on." - Tina, Mandy & Lee, Brian's children.

## Carter Ward PICU Now Open

Male

18+ Years

12 beds

Carter Ward is our new 12 bed male PICU and accepts emergency and crisis admissions. Referrals come to us from all areas, including acute and prison services. Our aim is a short, rapid intervention to help individuals regain a sense of control and order in their lives, so they can move to a less restrictive care setting and ultimately return home.

The service provides expert, intensive, short-term, individualised care for service users detained under the Mental Health Act.

Service users will present with increased risks that require them to be assessed and treated in a PICU environment.

## Shaw Ward Acute Now Open

Male

18+ Years

17 beds

This new 17 bed male emergency acute inpatient service provides a safe and stabilising environment for individuals who are experiencing an acute episode of mental illness and require an emergency admission.

The aim on Shaw Ward is to assess and treat individuals in the least restrictive environment and planning for discharge in a robust and timely fashion. With a focus on stabilisation, we support individuals to manage their mental health, reinforce daily living skills and prepare for independent life back in the community.

Our team work closely and collaboratively with service users, their families and the referrer to provide a seamless pathway from referral to discharge. Our approach is recovery focused and supported by a comprehensive multi-disciplinary team, contributing to shorter lengths of stay.

### Our service user profile:

- > Men, aged 18+ years
- > Detained under the Mental Health Act
- > Experiencing difficulties that present a risk to the well-being of themselves or others that cannot be treated in an open environment
- > Diagnoses may include:
  - Acute mental illness
  - Acute depressive illness
  - Psychosis
  - Schizophrenia
  - Bi-polar disorder
  - Personality disorder
  - Dual diagnosis
- > May present with co-morbid presentations:
  - Self-harm
  - Substance misuse issues
  - Complex needs

# Our Referral Process:

- 1 Referral made to Cygnet Bed Hub via 0808 164 4450 / [chcl.referrals@nhs.net](mailto:chcl.referrals@nhs.net)
- 2 Feedback provided on whether our services can meet the **service user's needs within 1 hour** of receipt of full clinical information
- 3 **Admission agreed and arranged** with referring team following confirmation of funding
