

Improving lives together

Medium Secure Mental Health Service for Men

West Hampton,
Cygnnet Bury Hudson, North West

Accepting
Referrals

West Hampton is Cygnnet Hospital Bury's 13 bed medium secure service for men. West Hampton supports men with a range of complex care needs including personality disorder, mental illness and detachment disorders.

A highly specialised multi-disciplinary team (MDT) supports people at West Hampton, with care and treatment programmes that are tailored to individual needs.

Service users are supported by an experienced team, who work with people to assess their needs and goals, and create a safe, robust discharge pathway to the community.

Treatment is based on the principles of recovery including psychological therapies, occupational therapy, social therapy, physical healthcare and medication. Risk assessment tools are used and a clinical formulation is developed to inform the management plans for each individual.

We have a strong network of step down pathways in the area, including a low secure service on-site.

Male

18+ years

13 beds

Our service user profile:

- > Men, aged 18+ years
- > Primary diagnosis of mental illness
- > Detained under the Mental Health Act, including Ministry of Justice restrictions
- > Requiring assessment and treatment in a secure environment
