Improving lives together

Cygnnet Hospital Kidsgrove, Staffordshire

- > Acute service for women
- > Highly Specialised Personality Disorder service for women

Introduction

Cygnets Hospital Kidsgrove is our new hospital for women in Staffordshire. The service is now open and accepting referrals.

There are two wards at the hospital; a 20 bed Acute service for women and an 11 bed Highly Specialised Personality Disorder Rehabilitation service.

Crocus Ward provides a safe and stabilising environment for women who are experiencing an acute episode of mental illness and require an emergency admission. Burleigh Ward provides specialised support for women with a personality disorder and other complex needs.

The services provided are:

Crocus Ward

Acute Service

Female

18+ Years

20 beds

Crocus Ward, our new 20 bed female emergency acute inpatient service, provides a safe and stabilising environment for women experiencing an acute episode of mental illness and require an emergency admission.

The ethos of Crocus Ward is to assess and treat women in the least restrictive environment, whilst planning for discharge in a robust and timely fashion. With a focus on stabilisation, we support women to manage their mental health, reinforce daily living skills and prepare for independent life back in the community.

Our team work closely and collaboratively with individuals, their families and the referrer to provide a seamless pathway from referral to discharge. Our approach is recovery focused and supported by a comprehensive multi-disciplinary team, contributing to shorter lengths of stay.

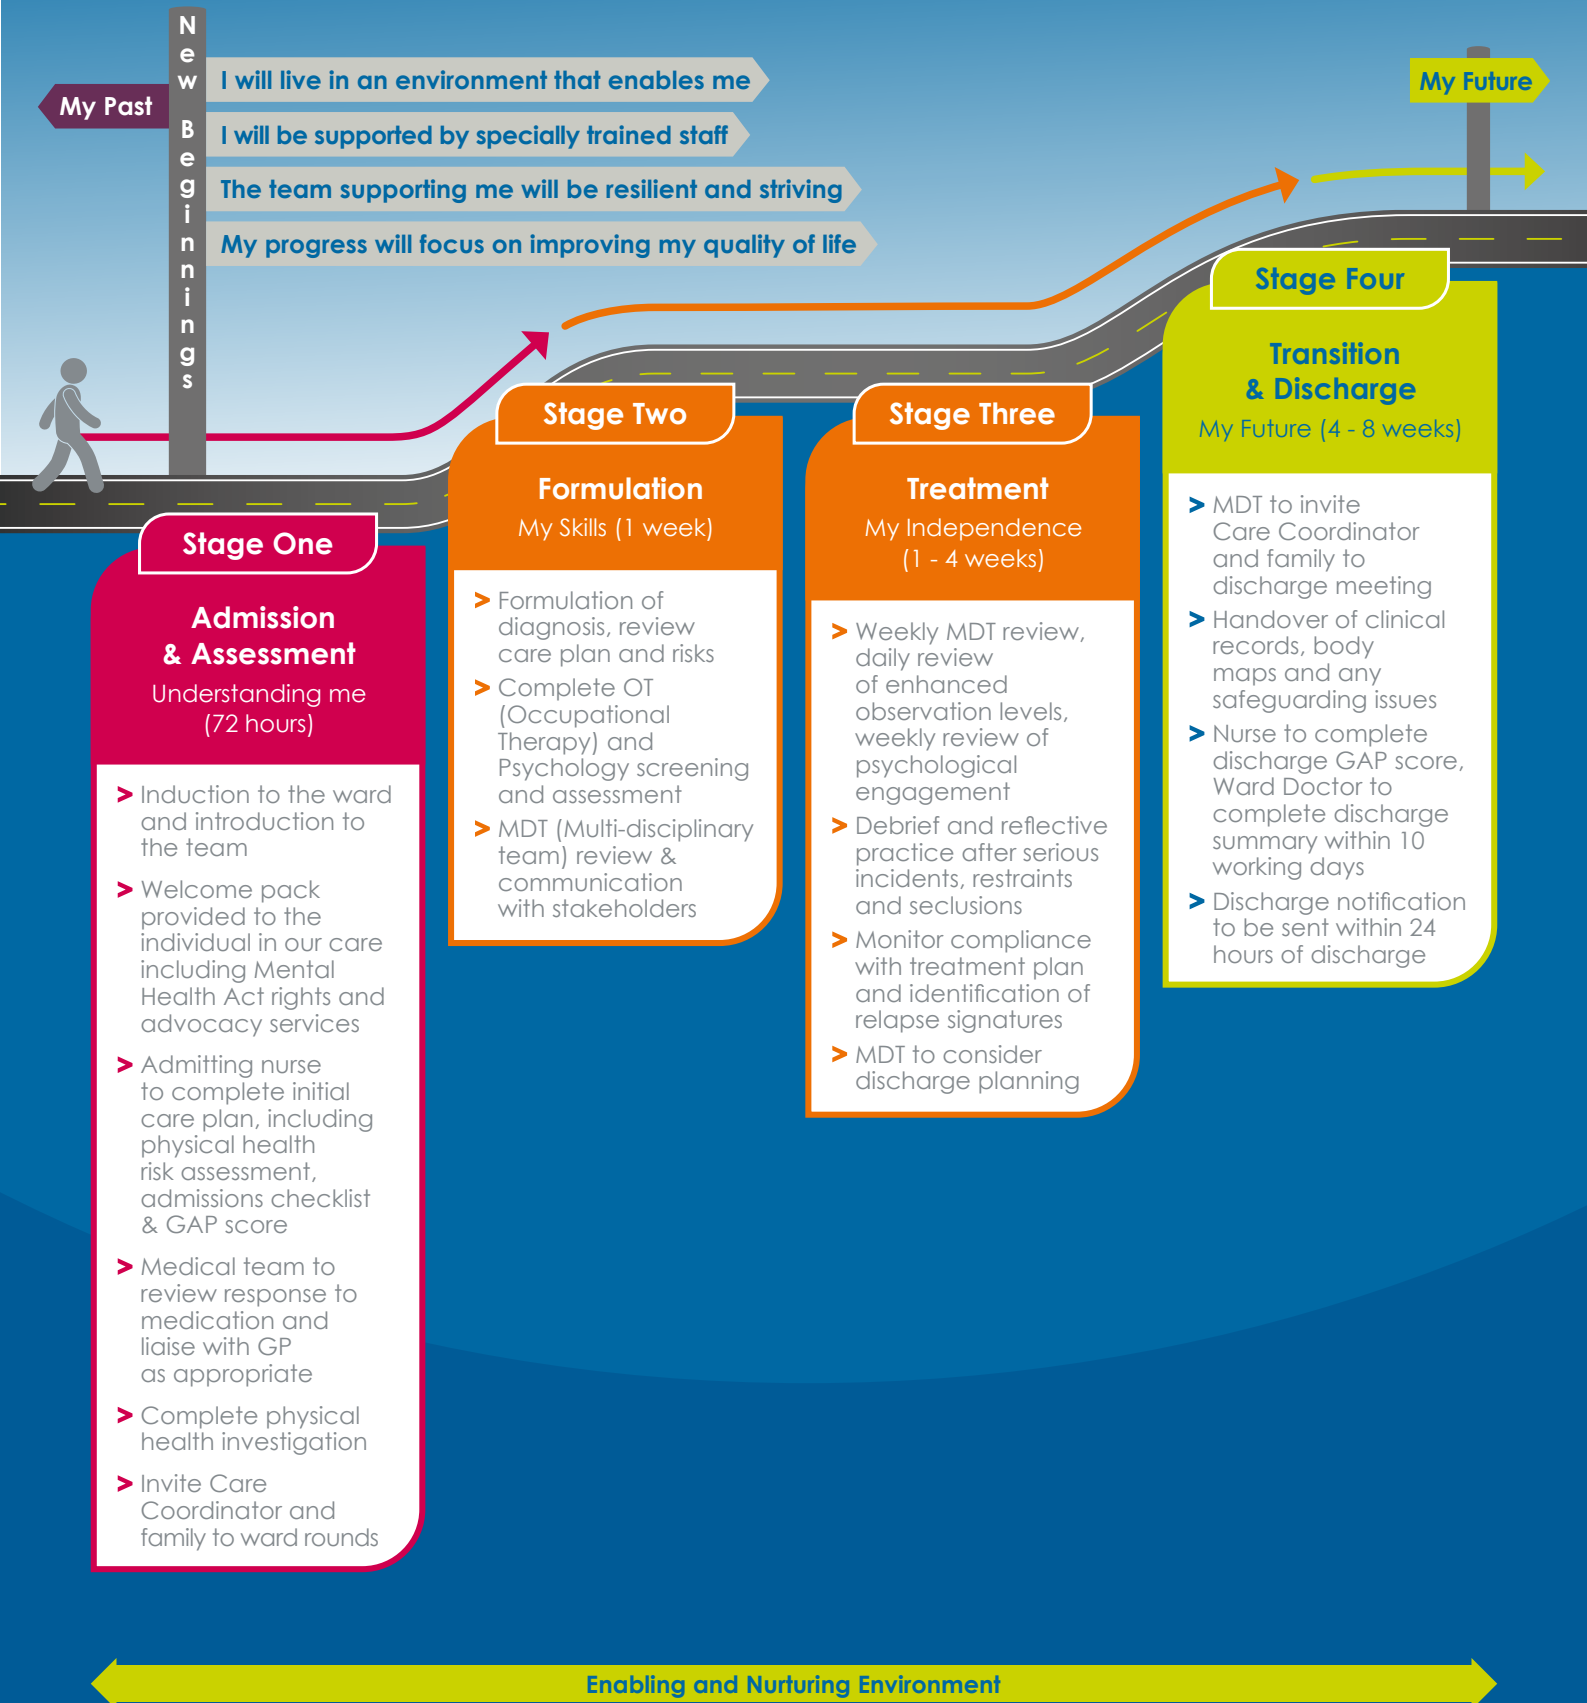

Our service user profile:

- > Women, aged 18+ years
- > Detained under the Mental Health Act or informal
- > Experiencing difficulties that present a risk to the well-being of themselves or others that cannot be treated in an open environment
- > Diagnoses may include:
 - Acute mental illness
 - Acute depressive illness
 - Psychosis
 - Schizophrenia
 - Bi-polar disorder
 - Personality disorder
 - Dual diagnosis
- > May present with co-morbid presentations:
 - Self-harm
 - Substance misuse issues

Model of Care for our PICU / Acute Services

At Cygnet Health Care we are doing all we can to make a positive difference. To help guide us & ensure we are working together to achieve this we have collaboratively developed our Model of Care for our PICU / Acute Services. A guide that shows what we do as an organisation to meet the acute needs of adults requiring rapid access to mental health services, including those who may need an intensive care environment.

Burleigh Ward

Highly Specialised Personality Disorder Service

Female

18+ Years

11 beds

Burleigh Ward is Cygnet Hospital Kidsgrove's 11 bed highly specialised service providing assessment, treatment and rehabilitation for women with personality disorder and complex needs.

Rehabilitation is provided in a therapeutic setting, with a level of security matched to individual need. The aim of the treatment, rehabilitation and re-socialisation programme is to equip the women in our care with the skills and confidence they need to navigate challenges that may come with returning to community or independent living.

Our dedicated clinical teams provide a multi-disciplinary approach to rehabilitation, empowering individuals to make positive choices to support recovery. This will include occupational therapy, social work and vocational training.

Burleigh Ward offers a variety of communal and one to one spaces, each thoughtfully designed to aid recovery. Dimmable lighting has been fitted to support sensory needs and preferences, creating a calming and comfortable environment for women with a personality disorder and autism.

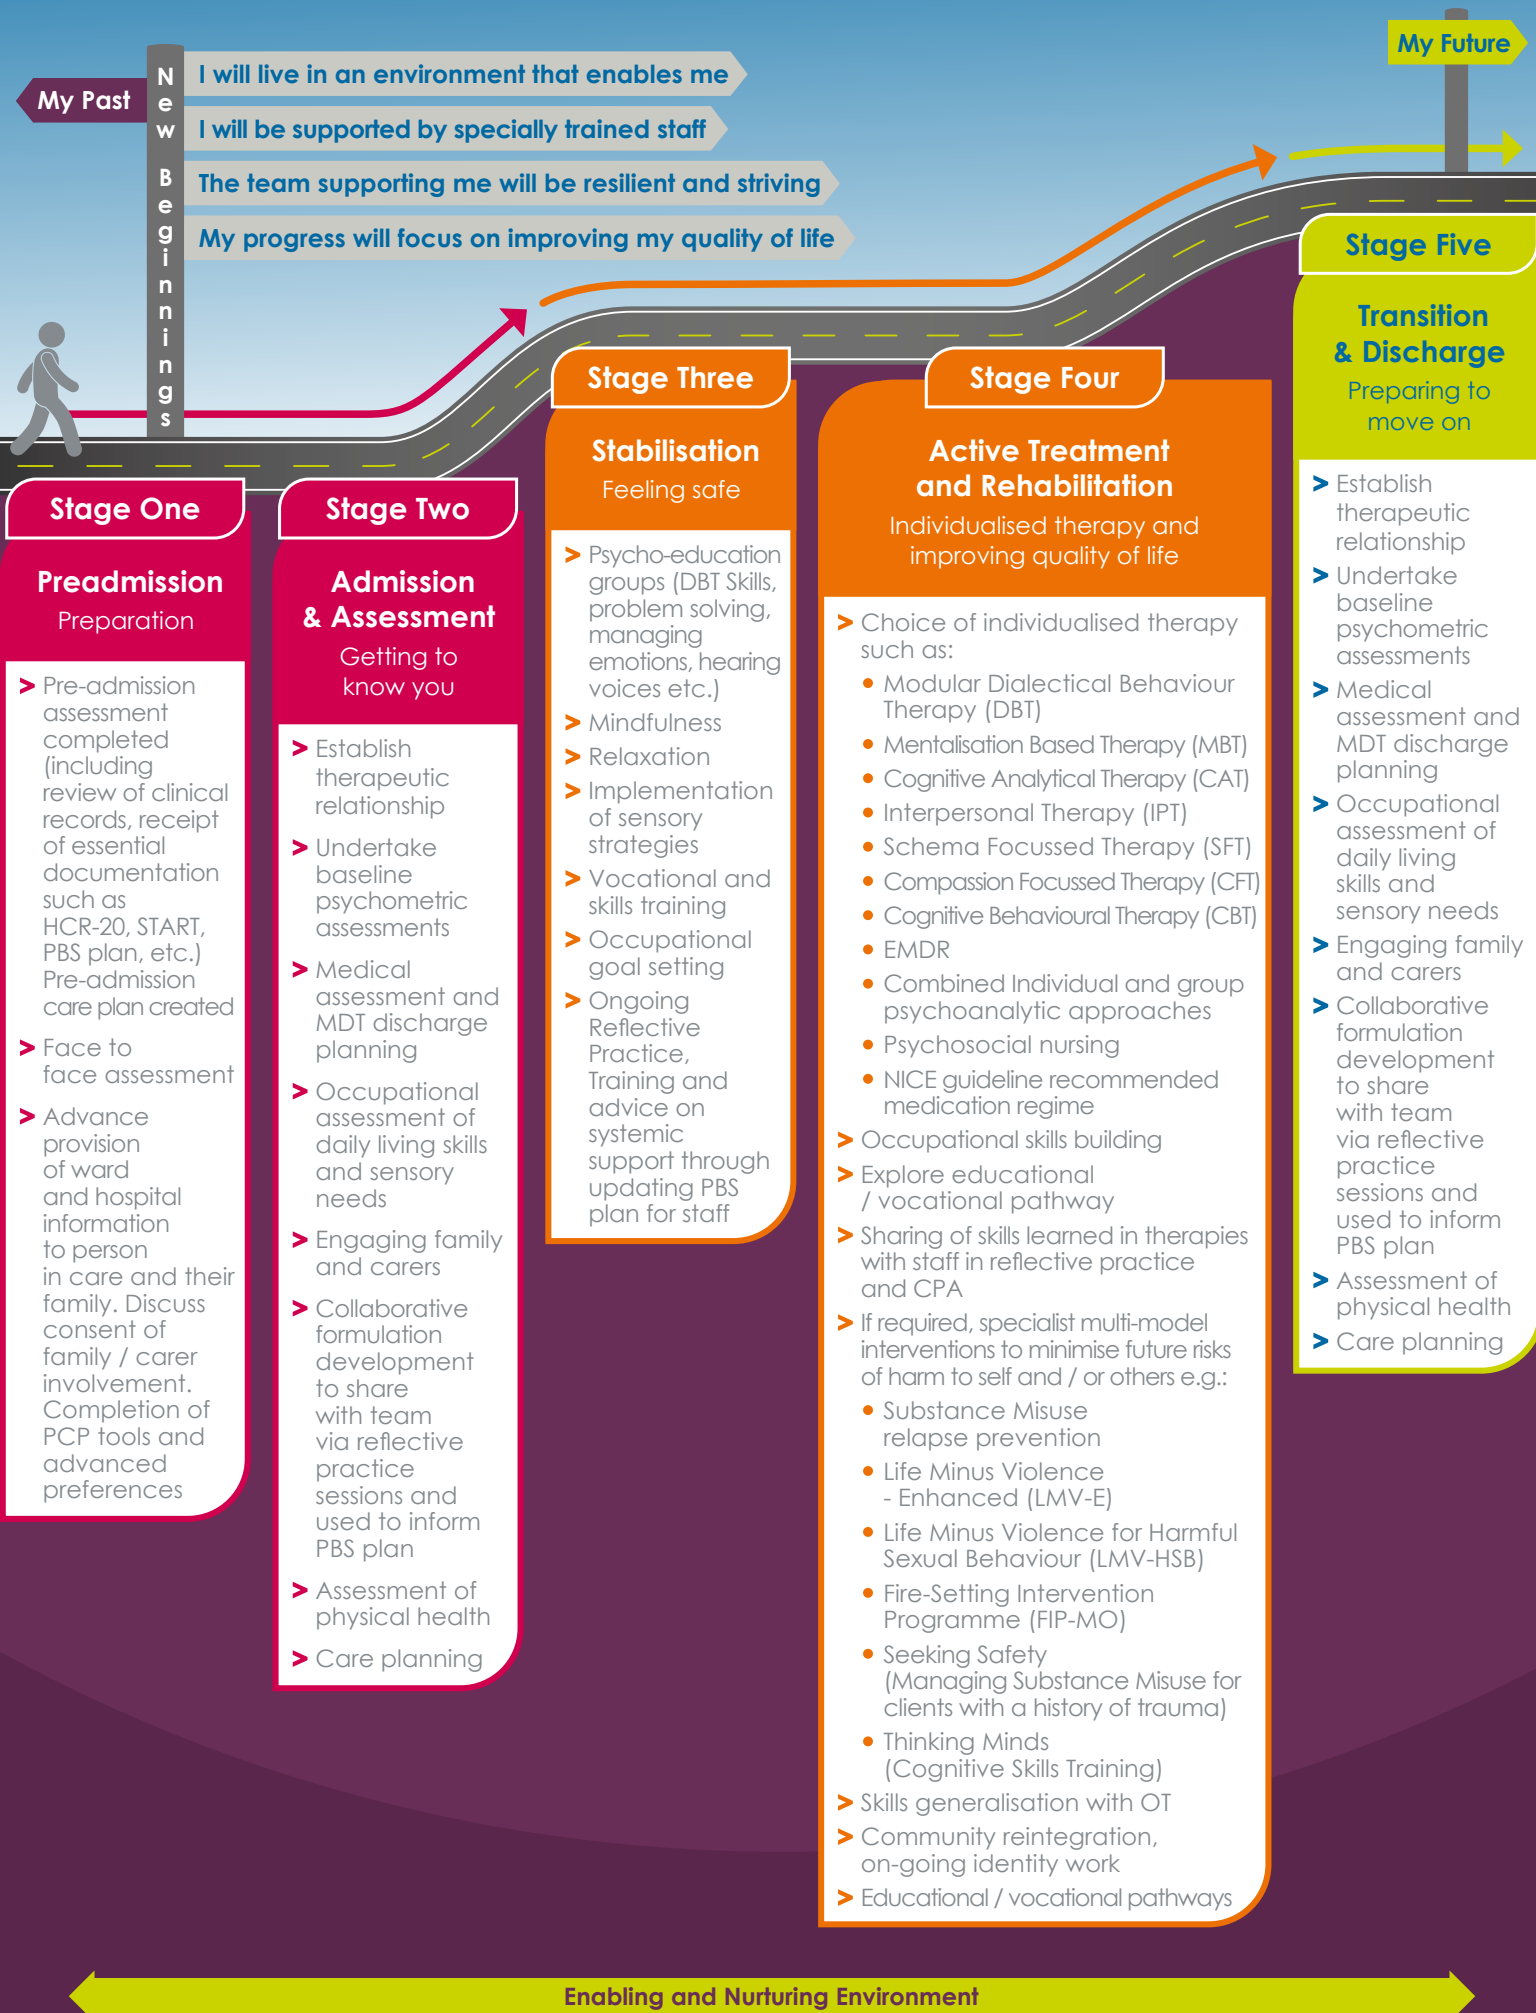

Our service user profile:

- > Female, aged 18+ years
- > Diagnosis of personality disorder with complex mental health needs
- > May have a secondary diagnosis of autism
- > Subject to a section of the Mental Health Act
- > May have a history of substance misuse or dependency
- > May have experienced regular placement breakdowns
- > Sustained relational and social functioning problems
- > Forensic or non-forensic history
- > Capacity to engage

Therapeutic approaches and assessments: (may include but not limited to)

- > Dialectical Behaviour Therapy (DBT) Informed Approach
- > Cognitive Behavioural Therapy (CBT)
- > Trauma Focused-Cognitive Behavioural Therapy (TF-CBT)
- > Compassion Focused Therapy (CFT)
