MP Gareth Thomas Visits Cygnet Hospital Harrow

Gareth Thomas, Labour MP for Harrow West, visited Cygnet Hospital Harrow to learn more about the services provided and to meet with staff and service users.

During his visit, he toured the wards and spoke with team members about the hospital's work supporting people mental health needs.

Located on London Road, Harrow on the Hill, Cygnet Hospital Harrow is a 51-bed mental health hospital for men offering a range of specialist services, including acute mental health care and autism support.

Hospital Manager Will Anderson-White said: "It was an absolute pleasure to welcome Gareth Thomas MP to Cygnet Hospital Harrow.

"The visit provided an opportunity to reflect on the important role our hospital plays within the local health and social care system.

"We discussed the current healthcare landscape and how we work in close collaboration with the NHS to provide high-quality, complex care for individuals with mental health and specialist needs.

"We were also able to showcase the ways our work extends beyond the hospital through partnerships with local colleges, sports facilities, charities, and volunteering initiatives. As well as our important close clinical links with Northwick Park Hospital.

"We're proud to be a valued part of the Harrow community and grateful to Gareth for taking the time to visit the wards, engage with our teams, and recognise the positive difference made each day by the staff at Cygnet Hospital Harrow."

Gareth Thomas MP said: "It was great to visit Cygnet Hospital Harrow and see first-hand the vital work being done by dedicated staff to support people with mental health needs in our community.

"The commitment of the team to delivering high-quality, compassionate care is clear to see, and it's encouraging to know that local services like this are working closely with the NHS and community partners to make a real difference in people's lives."

Cygnet Hospital Harrow is part of the Cygnet Health Care division, a leading provider of health and social care services across the UK.
