

Improving lives together

Transitional Service for Adults who are clinically ready for discharge on PICU or Acute Wards

Cygnnet Health Care offers a PICU / Acute transitional service for people who no longer require an acute admission and are clinically ready for discharge, but do not have a community placement available. The service is offered at all of our mental health rehabilitation and recovery services (level 2) within the UK.

Male
and Female

18+ years

National
placements

Average Length of Stay
for our transitional service is

48* days

* Data relates to 37 individuals between Jan 23 & Jul 24

Our service user profile:

- > Men or women, aged 18+ years
- > Detained under the Mental Health Act or informal
- > Individuals who are clinically ready for discharge, but:
 - Require some support prior to discharge to the community
 - Do not require a long term rehabilitation placement
 - Need a period of assessment to identify their next placement
 - Have a placement identified with no agreed admission date
 - Have no fixed abode and require housing / benefit support

Case Study

In 2023, 8 individuals from one NHS trust
moved from

a PICU or Acute service

to

a Cygnnet Mental Health Rehabilitation and
Recovery (Level 2) service.

Cost savings to the trust

£350,000*

* Costs compared to those individuals staying on the PICU or Acute ward for the same time period
